Phone: +918708044208

Experience

Frontend Developer at Voyantt Consultancy LLP ,Kolkata   **Aug 22 - Present**

Design, develop and maintain complex web applications using React JS.

Integrate REST APIs with the app and manage data in using state management tools.

Collaborate with cross-functional teams to ensure software quality and functionality with a clean, reusable, and efficient code using custom Hooks and reusable components.

Optimize applications for maximum speed and scalability.

Implement responsive web design and accessibility best practices using CSS Frameworks like tailwind CSS

Frontend Developer at Qubit AI   **July 21 - July 22**

Provide support in implementing user interfaces, adding new features, and fixing bugs.

Implemented user interface designs created by UX/UI designers HTML, CSS, and JavaScript. ensure that the user interface is responsive, accessible, and meets the design requirements

Assist in developing new features for the application, following the specifications provided by the Project Manager. Write clean, well-organized code that adheres to best practices and is easy to understand and maintain.

React JS Mentor at Coding Ninjas   **May 22 - May 23**

Taking doubt sessions

Debugging codes

Helping students in their assignments & various projects

Projects

Vendor Connect Portal

- Designed and implemented a scalable architecture. Built a modular and flexible, allowing for easy integration with other systems and components.
- Wrote clean, well-organized code that is easy to understand and maintain. added design patterns to ensure that the codebase is scalable and can be easily extended
- Optimize the performance of the application to ensure that it loads quickly and provides a smooth user experience. Identify performance bottlenecks and optimized the code accordingly. Reduced Loading time using lazy loading techniques.
- Added Error Boundaries to handle Edge Cases

Job Onboarding SAAS

- UI development using Next.js, organizing code in a monorepo with turborepo, The monorepo structure allows for efficient code organization.
- Styling UI components with Tailwind CSS, Tailwind CSS facilitates consistent and responsive UI designs.
- built the candidate dashboard interface, ensuring a seamless user experience.

HR Dashboard

- Provide support to them in designing and implementing user interfaces, developing new features, and fixing bugs.
- Implement user interface designs created by UX/UI designers HTML, CSS, and JavaScript. ensure that the user interface is responsive, accessible, and meets the design requirements
- Assist in developing new features for the application, following the specifications provided by the Project Manager. Write clean, well-organized code that adheres to best practices and is easy to understand and maintain.

Tunic App – Geektrust Project

- The application allowed users to browse and search for products listed on the website. Users are able to filter products based on different criteria, such as category, price, and availability.
- Add products to their shopping cart and proceed to checkout. The shopping cart would keep track of the total cost of the products and any applicable taxes and shipping fees.
- The app is designed to be responsive and accessible on a variety of devices, including desktops, tablets, and smartphone

Technical Skills

Programming Languages – JavaScript ,TypeScript , Java

Front End Stack – HTML/CSS | SCSS | ReactJS | Framer Motion | jQuery | Material UI | Tailwind CSS

Back End Stack – Node JS | Express JS | Socket IO | MongoDB | Firebase | MySQL

Certifications

NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno) -Udemy

React - The Complete Guide (incl Hooks, React Router, Redux) -Udemy

JavaScript Algorithms and Data Structures Masterclass -Udemy

Education

Bachelor of Technology, BTech	Mechanical Engineering, Maharishi Dayanand University	August, 2017	8.37/10
Higher Secondary Education	CBSE, Shiksha Bharti Sr. Sec. School	August 2013	84.6/100
High School	CBSE, Shiksha Bharti Sr. Sec. School	March, 2011	9.8/10
